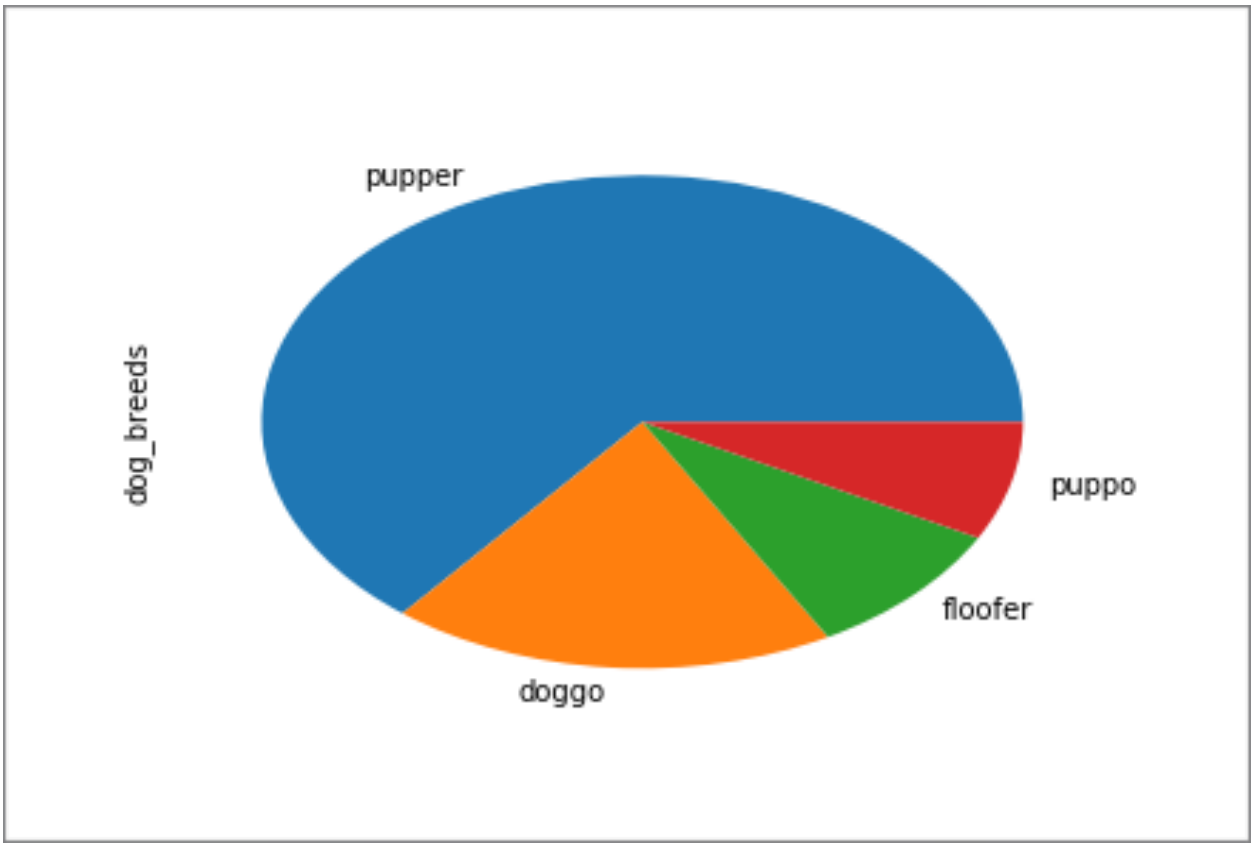
Introduction:

This analysis is of tweets from the WeRateDogs account that rates people's dogs with a humorous comment about the dog. I analysis revolved around the trend in popularity over time of the account based off of the number of retweets and the number of favorites.

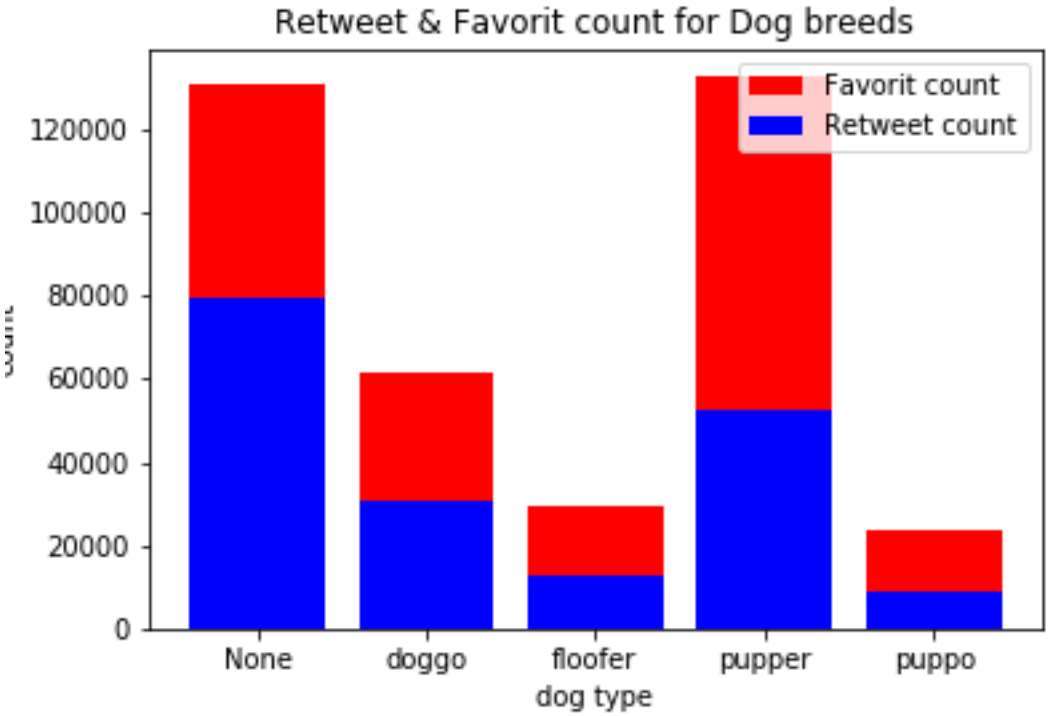
Dog Stages:

In our data set, there are four dog stages. As we can see in the pie chart, Pupper represent the highest number of the pie chart. Whereas Puppo has the lowest number. As we can see most of the people have a puppy and they have been sharing some pictures on Tweeter social media. People adopt puppies because they are so cute. Puppies make us laugh, smile, and live longer lives. Also, they’re just so dang cute and fun to be around us all the time.



Retweet & Favorite count for Dog breeds:

A cute dog picture is really worth a thousand of retweets and favorites. There are some possible reasons for a large number of retweets and favorites for puppy dog it can they wear nice clothes or they have silly or funny dog pictures, or there are so awesome. We can see that Pupper has the highest number of favorite and retweet. whereas puppy has the lowest number of both favorite and retweet. Doggo and flooder have the same number of favorite and retweet.



Favorite and Retweet over the Time:

Form the chart below that clear there is a more noticeable increase in the number of a favorite when compared to the number of retweets.
